

+ PROJECT VISION STATEMENT

Mission

To establish an enduring cohousing neighborhood based on the principles of social cooperation, environmental consciousness and sustainable design.

Vision

A diverse community that uses clear communication and consensus decision-making to promote cooperation.

A vibrant living environment that enables and encourages connection and neighborliness, honors privacy, and supports biodiversity.

Healthy, adaptable and affordable homes that we enjoy living in and are built using the best practicable green architecture.

Values

We are responsible, accountable and respectful stewards of this earth.

We promote integrity, tolerance and peace in all that we do.

We encourage resilience, innovation and resourcefulness to meet challenges.

We foster an environment of collaboration.
